
FATUMA

Fatuma is 8 years old, she lived in a very poor family, she didn't go to school due to lack of resources and the few that her father spends on alcohol... a very sad situation, she didn't speak and that environment wasn't going to help her absolutely...

I am THANK YOU because, with the permission of her family, she is with us at Mama Kevina Hope Centre in Same (Tanzania). She goes to school, she already talks more, she has come a long way in this time. And I'm sure you will have a chance.
